

Spin wheel spin!

Print, cut, paste & have fun!

HOW TO BUILD YOUR SPINWHEEL IN FOUR SIMPLE STEPS:

1. USING A PAIR OF SCISSORS CUT ALONG THE DOTTED LINES.
2. FOLD THE FOUR CORNERS MARKED WITH A HOLE AND SECURE THEM IN PLACE PUTTING A PIN THROUGH ALL THE FOUR POINTS.
3. TURN YOUR PINWHEEL OVER - MAKE SURE THE PIN POKES THROUGH THE CENTER. STICK THE PIN INTO A PAPER STRAW.
4. VOILA! THERE'S YOUR SPINWHEEL READY TO SPIN. ENJOY!

TIP: TO MAKE SURE YOU PINWHEEL SPINS FREELY, SEPARATE YOUR PINWHEEL FROM THE STRAW (YOU COULD USE TWO OR THREE BEADS, SIMPLY STICK THE PIN THROUGH THE BEADS FIRST, THEN - INTO THE STRAW)
